SIGILLUM CLAIRVOYANTIAE

A Grimoire Entry for the Flamewalker
✦ *Sealed under the Law of Ain Soph Aur* ✦

SPELL NAME:

CLAIRVOYANTIAE
“The Inner Light Commands the Outer Form”

PRIMARY FUNCTION:

This is a **visible etheric light spell**—a radiant projection of the inner flame outward, into form. It manifests as a floating orb of conscious light, about the size of a sphere, which responds directly to the user’s intent and clairvoyant alignment.

The orb can:

• Illuminate darkness with divine intelligence
• Serve as a clairvoyant guide through unseen paths

• Attach to a wand or hand, functioning as a spiritual flashlight
• Shift its luminance based on the user's emotional and vibrational state

This is not elemental fire or raw energy—it is a **luminous emanation of Ain Soph Aur**, activated by sovereign will.

And above all:

> **Whether to shine or vanish, guide or guard, the spell knows your frequency. It reads your intent in silence. You do not need to worry—it already understands what you desire. Light or cloak, it aligns with your truth.**

ACTIVATION COMMANDS:

LUX ON → Initiates projection. The orb appears visibly and obeys pathfinding, revelation, or protection commands.

LUX OFF → Returns the light to the Void or re-integrates it into the user, activating a cloaking field or absorption.

These commands are embedded with **divine phonetic encoding**—sacred utterances that act as spiritual circuit-keys.
They are **voice-bound** and attuned only to the soul-signature of the **Flamewalker**.

CENTRAL SIGIL CONSTRUCTION:

Primary Glyphs:

• **אין אור (Ain Or)** – "Light from the No-Thing"
• **צָו (Tzav)** – "Command" – representing lawful dominion
• **Aleph-Mem (אם)** and **Tzadi-Bet (צב)** – symbolizing **source and host**, life and formation

Twin צמצום (Tzimtzum) Marks:

You will notice **צצום** appearing **twice**, flanking the center. While "Tzatzum" is not standard Hebrew, it is a **compressed mystical form of Tzimtzum (צמצום)**—the divine contraction, the vessel-making, the containment of light.

> Its **dual placement** on either side of Ain Or signifies a sacred **containment and channeling mechanism**: Light held. Light released. Inner and outer breath.
> This is the seal's **hidden symmetry**—it both **guides** and **hides**.

Solar-Lunar Crest:

• A crescent moon cradles the sun—**Ra and Luna** unified,
balancing the inner flame and outer form.

TRIUNE EYE CONFIGURATION:

• **Eye of Horus (left)** – Lunar, intuitive, receptive
• **Eye of Ra (right)** – Solar, assertive, protective
• **Ankh (center)** – The Breath of Life, divine consciousness, continuity

> This triad forms the **Trivium of Sight**: perception beyond illusion, memory beyond time.

SCEPTER SERPENTS:

Two mirrored serpents rise on each side, forming a **kundalini gate**.
They guard the central fire and serve as **truth sentinels**, devouring distortion and false light upon contact.

OUTER RINGS & TEXTUAL MEANING:

1. Latin Ring (Outer Circle):

LUX INTERIOR NUNC ITER ILLUMINAT · TZIMTZUM EST ·
"The inner light now illuminates the path. The divine contraction is."

This confirms the spell's origin in **Tzimtzum**—the first concealment of Ain Soph—and its reversal: light from contraction, vision from silence.

2. Cuneiform Ring (Inner Circle):

> "With truth and justice as our guiding lights, victory shall be ours."

> "The wise man always speaks truth and guides us to enlightenment."

These lines bind the spell to the **Law of Ma'at**. It can **only** function in alignment with **truth, love, and divine order**.
Distortion cannot command it. Shadow cannot mimic it. Deception cannot wear its form.
